PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Fund is only suitable for investors who:
 - are seeking long term growth potential offered through investment in offshore RMB (CNH), onshore RMB (CNY) and USD denominated bonds, fixed income instruments and financial derivatives; and
 - are comfortable with the risks of a fund that primarily invests in RMB denominated fixed income securities (both onshore RMB (CNY) (through the Investment Manager’s QFII/RQFII licence) and offshore RMB (CNH)).

Further Information
Refer to paragraphs 3 and 5.4 of the Singapore Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a fund operated by Fullerton Lux Funds (“**Company**”). The Company is an umbrella-structured open-ended investment company organised as a société anonyme under the laws of Luxembourg and qualifies as a SICAV.
- The investment objective of the Fund is to generate long term capital appreciation for investors.
- Distributions (if any) may be declared at the Company’s absolute discretion out of income, capital gains and/or capital, and may have the effect of lowering the Fund’s NAV. Distributions out of capital may amount to a partial return of your original investment and may also reduce future returns.
- The Fund Currency is USD.

Refer to paragraphs 1 and 3 of the Singapore Prospectus for further information on features of the product.

Investment Strategy

- The Fund invests primarily in RMB denominated bonds (both onshore RMB (CNY) and offshore RMB (CNH)), money market instruments, certificates of deposits, term deposits, credit linked bonds and convertibles. The Fund’s investments may also include, but are not limited to, USD denominated bonds, credit linked notes, currency forwards and cross currency swaps. With effect from 4 January 2021, the Fund’s investments will no longer include credit linked bonds and credit linked notes.

Refer to paragraph 3 of the Singapore Prospectus for further information on the investment strategy of the product.

¹ The Singapore Prospectus is available from the Singapore Representative or authorised distributors. It is also available at <http://www.fullertonfund.com>.

² This refers to the earliest launched Share Class that is offered under the Singapore Prospectus.

³ The “Manager” and “Custodian” in this table refers to the Management Company and the Depositary Bank respectively, as used in the Product Highlights Sheet and the Singapore Prospectus.

⁴ Figures relate to Share Classes offered in Singapore that have been incepted as at 31 March 2020. Please refer to the Singapore Prospectus for the specific expense ratio of each Share Class.

<ul style="list-style-type: none"> • Investments in onshore RMB (CNY) bonds may include bonds traded in both the CIBM and PRC Stock Exchanges and will be made through the Investment Manager's QFII and/or RQFII licence or any other available channel. • The Investment Manager intends to adopt a combination of top-down macro research for duration or interest rate management and sector allocation, and bottom-up analysis for credit selection and yield curve positioning. • The Fund, which Shares will be reclassified as Excluded Investment Products from 4 January 2021, may use FDIs for efficient portfolio management and hedging purposes. 	
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Management Company is Lemanik Asset Management S.A. • The Investment Manager and Singapore Representative is Fullerton Fund Management Company Ltd. • The Depository Bank is BNP Paribas Securities Services, Luxembourg Branch. 	<p>Refer to paragraph 2 of the Singapore Prospectus for further information on their roles and responsibilities, and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its distributions may rise or fall. These risk factors may cause you to lose some or all of your investment (including initial principal investment). You should note that the NAV of the Fund has potential for high volatility due to its investment policies or portfolio management techniques.</p>	<p>Refer to paragraph 5 of the Singapore Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to the risk of investing in emerging and less developed markets. <ul style="list-style-type: none"> ○ The legal, judicial and regulatory infrastructure of such markets is still developing and there is much legal uncertainty. • You are exposed to political, regulatory and economic risks. <ul style="list-style-type: none"> ○ Economic and/or political instability could lead to legal, fiscal and regulatory changes. Taxes or exchange controls can be imposed suddenly. Assets could be compulsorily re-acquired without adequate compensation. Inflation and deflation may result in a decline in the value of the Fund's portfolio. ○ Tax law and practice in certain countries is not clearly established. Additional taxation that is not anticipated when investments are made, valued or disposed of may be imposed. • You are exposed to market custody and settlement risks. <ul style="list-style-type: none"> ○ Securities markets in some countries lack the liquidity, efficiency and regulatory controls of more developed markets. Provisions for custody and legal/beneficial interests and settlement procedures may be less developed than more mature markets. Depository Bank and sub-custodians may default. The Fund may be affected by inability to repatriate income, capital or sale proceeds. • You are exposed to credit risks. <ul style="list-style-type: none"> ○ The issuer of securities and counterparties to transactions may default on their obligations. ○ Credit ratings of an investment are largely based on historical information and may not reflect current financial, volatility or liquidity conditions. ○ Lower rated, higher yielding debt securities are subject to greater market and credit risks than higher rated securities. • You are exposed to interest rate risks. <ul style="list-style-type: none"> ○ Values of bonds and other debt instruments usually rise and fall in response to changes in interest rates. • You are exposed to exchange rate risks. <ul style="list-style-type: none"> ○ The Fund's investments may be denominated in different currencies and affected by exchange rate fluctuations. 	

<ul style="list-style-type: none"> ○ The Fund and certain Share Classes are not denominated in the Singapore Dollar and investors may be exposed to exchange rate risks. The Investment Manager may not fully hedge the foreign currency exposure, although it may have the discretion to do so. ● You are exposed to currency control risks. <ul style="list-style-type: none"> ○ The RMB is not freely convertible and is subject to foreign exchange control policies and repatriation restrictions. There may be a divergence in the exchange rate between the offshore and onshore RMB markets. The Fund's investments may also be affected by changes in currency and exchange control policies and regulations in China. ● You are exposed to the risks of UK withdrawing from the EU (Brexit). <ul style="list-style-type: none"> ○ Brexit may lead to political and economic uncertainty and periods of exacerbated volatility. Currency volatility and the downgrading of UK's sovereign credit rating may impact the Fund's performance. 					
Liquidity Risks					
<ul style="list-style-type: none"> ● The Fund is not listed and you can redeem only on Dealing Days via the Singapore Representative or approved distributors. 					
Product-Specific Risks					
<ul style="list-style-type: none"> ● You are exposed to derivatives risks. <ul style="list-style-type: none"> ○ The Fund may use FDIs and these investments carry their own specific risks. Certain investments may be subject to greater volatility, counterparty risks and higher degree of risks. Further, futures transactions may be "leveraged" or "geared". ● You are exposed to China QFII/RQFII risks. <ul style="list-style-type: none"> ○ The Fund may invest directly in QFII/RQFII Eligible Securities via the QFII/RQFII licence of the Investment Manager. If this QFII/RQFII licence is lost, the Fund may have to dispose of its holdings and suffer adverse consequences. ○ The Fund may be exposed to limited investment capabilities, QFII/RQFII investment restrictions, illiquidity of the Chinese domestic securities market, delay/disruption in the execution and settlement of trades, and/or uncertainties of China taxation policies. ● You are exposed to CIBM risks. <ul style="list-style-type: none"> ○ The CIBM is an OTC market in development with smaller market capitalisation and trading volume compared to more developed markets. This means higher volatility and spread prices, and exposure to higher settlement, counterparty and regulatory risks. ● You are exposed to the risk of investing in ABS and MBS. <ul style="list-style-type: none"> ○ The Fund may invest in ABS and MBS, which may be highly illiquid and therefore prone to substantial price volatility. ● You are exposed to non-investment grade securities risks. <ul style="list-style-type: none"> ○ Issuers of non-investment grade securities are exposed to adverse business, financial or economic conditions, which could lead to non-payment of interest and principal. Prices of non-investment grade securities may be affected by individual corporate developments, economic conditions and illiquid markets to a greater extent than investment grade securities. ● You are exposed to LIBOR transition risk. <ul style="list-style-type: none"> ○ LIBOR is set to be phased out by the end of 2021. The transition from LIBOR including its variants to alternative reference rates is expected to impact existing and future derivatives transactions and securities with uncertainty.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The Fund is valued on each Dealing Day. The price per Share of all Share Classes is quoted on a forward-pricing basis, and is normally available on the website <http://www.fullertonfund.com> within two (2) Business Days of the actual transaction dates and may also be available on Bloomberg and SIX Telekurs. You may also request for the indicative price per Share from the Singapore Representative. To counter dilution and protect investors' interest, the Fund may apply swing pricing or dilution adjustment of up to 2% of the NAV.

Refer to paragraphs 9 and 11 of the Singapore Prospectus for further information on valuation and exiting from the product.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can redeem your Shares on any Dealing Day by submitting a written redemption request through the Singapore Representative's approved distributors or other appointed agents.
- Redemption proceeds are normally paid in the currency of the relevant Share Class within five (5) Business Days from the Dealing Day on which the redemption request is received and processed by the Administrator.
- Your redemption price is determined as follows:
 - If you submit your redemption request by 5pm Singapore time on a Dealing Day, you will be paid a price based on the NAV per Share determined on that Dealing Day.
 - If you submit your redemption request after 5pm Singapore time on a Dealing Day your request shall be treated as having been received on the next Dealing Day.
 - Redemption requests sent to approved distributors may have an earlier dealing cut-off time. Please check with the relevant distributor for details.
- The net redemption proceeds that you will receive will be the redemption price per Share multiplied by the number of Shares redeemed, less any charges. For example:

1,000.00 Shares		RMB 1.000		RMB 1,000.00
Your redemption request	x	NAV per Share	=	Gross redemption proceeds
RMB 1,000.00		RMB 20.00		RMB 980.00
Gross redemption proceeds	-	Redemption Charge (2%)	=	Net redemption proceeds
