### Market Review

In the last one year to March 2025, Singapore's economy demonstrated resilience in the face of global uncertainty, and easing inflation. Singapore's economic growth slowed from 4.0% in 2024 to a projected range of 1.0% to 3.0% in 2025, reflecting softer external demand and moderating domestic activity. Core inflation eased significantly over the period, declining from 3.1% year-on-year in mid-2024 to 0.6% by February 2025. In response to waning price pressures and signs of slower momentum, the Monetary Authority of Singapore (MAS) reduced the slope of the SGD NEER policy band in January—its first monetary easing in nearly five years.

The US economy saw a turbulent 12 months, shaped by a strong labour market, shifting inflation data, and political developments, including the reintroduction of aggressive tariffs under the Trump administration. While the first half of the period saw robust economic prints pushing Treasury yields higher, signs of cooling inflation and dovish pivots from the Federal Reserve (Fed) reversed some of that trend later in the year. The Fed delivered 100 basis points of rate cuts in H2 2024—comprising a 50 basis point cut in September, followed by two 25 basis point cuts in November and December. By early 2025, the reintroduction of tariffs under President Trump's administration triggered renewed trade uncertainty, complicating the outlook for inflation and policy direction.

US Treasuries experienced pronounced volatility across the year. The 10-year yield surged to 4.7% in April 2024 but later declined to a low of 3.6% due to softer inflation and Fed dovishness, only to rebound to almost 4.8% by January 2025 following political uncertainties and recalibrated monetary policy expectations. By end-March 2025, the 10-year yield settled at 4.2%—broadly unchanged from a year earlier—but the path was marked by significant fluctuations in rates. Singapore Government Securities (SGS) yields broadly mirrored US Treasury trends but exhibited lower volatility and stronger resilience. The 10-year SGS yield ranged from a high of 3.4% in April 2024 to a low of 2.4% in September before settling around 2.7% in Q1 2025. Demand for SGS remained robust, highlighted by record auction metrics. Elsewhere, the Singapore's non-government sector outperformed its SGS peers, as evidenced by the Markit iBoxx ALBI Singapore Non-government index.

**FULLERTON FUND**

**REPORT TO UNITHOLDERS****FULLERTON SHORT TERM INTEREST RATE FUND**

---

During the 12 months ending 31 March 2025, the Fund posted strong gains. Performance was supported by positive coupon carry from credit holdings and duration-related gains, as both US Treasury and SGS curves bull steepened with front-end yields falling. Wider credit spreads, however, detracted from overall returns.

**Strategy and Outlook**

The recent escalation of U.S. tariffs introduces renewed external headwinds for Singapore's open, trade-dependent economy. Singapore's exports face a 10% tariff which is lower than those imposed on many ASEAN peers. The relatively smaller competitiveness shock may cushion the immediate impact. Nonetheless, the broader implications for trade flows, corporate investment, and global supply chains are likely to reinforce indirect headwinds for Singapore's economy.

In line with expectations, the Monetary Authority of Singapore (MAS) adopted a more accommodative stance at the recently concluded April MPS meeting, slightly reducing the appreciation rate of the Singapore dollar nominal effective exchange rate (S\$NEER) band, while maintaining its width and center. Looking ahead, with inflation on a downward trend and U.S. tariffs on the rise, the case for further policy easing has strengthened. The risk bias remains tilted toward additional accommodation in the coming months, contingent on the evolution of the tariff landscape and incoming economic data.

From a portfolio strategy perspective, we are maintaining duration close to current levels, reflecting our low conviction in making directional duration calls amid ongoing uncertainty related to tariffs. However, the portfolio remains relatively insulated, with front-end yields anchored by expectations of continued Fed easing. The risk bias remains toward further curve steepening. We continue to favour SGD credit (over USD credits). Despite renewed global uncertainty stemming from recent tariff announcements, the SGD credit market has demonstrated notable resilience. Credit spreads have remained relatively stable, supported by flushed domestic liquidity, and a defensive market structure anchored by a deep, predominantly institutional investor base. Structural demand from large regional asset owners and central institutions continues to provide a strong anchor for spreads, even amid heightened external volatility.

**O) Soft dollar commissions**

The Manager is entitled to and may currently receive soft-dollar commissions from, or enter into soft dollar arrangements with, selected brokers who execute trades undertaken for funds it manages. The soft dollars received are restricted to the following kinds of services: research and advisory services, economic and political analysis, portfolio analysis including valuation and portfolio measurement, market analysis, data and quotation services, and computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process.

The Manager will not accept or enter into soft-dollar commissions/arrangements unless such soft-dollar commissions/arrangements will in the opinion of the Managers generally assist the Managers in their provision of investment services. Transactions executed for the Fund were on the best available terms taking into account the relevant market at the time for transactions of the kind and size concerned; and there was no churning of trades to qualify for such soft-dollar commissions/arrangements.

The Manager will comply with applicable regulatory and industry standards on soft dollars.

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

**REPORT OF THE TRUSTEE**

*For the financial year ended 31 March 2025*

---

The Trustee is under a duty to take into custody and hold the assets of the sub-fund of Fullerton Fund (the "Fund"), namely Fullerton Short Term Interest Rate Fund (the "Sub-Fund") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Fund during the financial year covered by these financial statements, with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

**STATEMENT BY THE MANAGER**

*For the financial year ended 31 March 2025*

---

In the opinion of Fullerton Fund Management Company Ltd ("the Manager"), the accompanying financial statements comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial positions and the portfolio holdings of Fullerton Short Term Interest Rate Fund (the "Sub-Fund") as at 31 March 2025, and the financial performance and movements in unitholders' funds for the financial year then ended 31 March 2025, in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Sub-Fund will be able to meet its financial obligations as and when they materialise.

**INDEPENDENT AUDITOR'S REPORT  
TO THE UNITHOLDERS OF FULLERTON FUND –  
FULLERTON SHORT TERM INTEREST RATE FUND**  
*(Constituted under a Trust Deed in the Republic of Singapore)*

**Our opinion**

In our opinion, the accompanying financial statements of the sub-fund of Fullerton Fund, namely Fullerton Short Term Interest Rate Fund (the “Sub-Fund”), are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 “Reporting Framework for Investment Funds” issued by the Institute of Singapore Chartered Accountants (“RAP 7”), so as to present fairly, in all material respects, the financial position and portfolio holdings of the Sub-Fund as at 31 March 2025, and of the financial performance and movements of unitholders’ funds for the financial year ended on that date.

*What we have audited*

The financial statements of the Sub-Fund comprise:

- the Statement of Total Return for the financial year ended 31 March 2025;
- the Statement of Financial Position as at 31 March 2025;
- the Statement of Movements of Unitholders’ Funds for the financial year then ended;
- the Statement of Portfolio as at 31 March 2025; and
- the Notes to the Financial Statements, including material accounting policy information.

**Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing (“SSAs”). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Independence*

We are independent of the Sub-Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (“ACRA Code”) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

**Other Information**

The Sub-Fund’s Manager (the “Manager”) is responsible for the other information. The other information comprises all the sections of the annual report but does not include the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**INDEPENDENT AUDITOR'S REPORT  
TO THE UNITHOLDERS OF FULLERTON FUND –  
FULLERTON SHORT TERM INTEREST RATE FUND**  
*(Constituted under a Trust Deed in the Republic of Singapore)*

**Responsibilities of the Manager for the Financial Statements**

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP 7 and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Fund or to cease the Sub-Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Fund's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.

**INDEPENDENT AUDITOR'S REPORT  
TO THE UNITHOLDERS OF FULLERTON FUND –  
FULLERTON SHORT TERM INTEREST RATE FUND**  
*(Constituted under a Trust Deed in the Republic of Singapore)*

**Auditor's Responsibilities for the Audit of the Financial Statements** (continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 March 2025*

---

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

#### **1. General**

Fullerton Fund (the "Fund") is a Singapore registered umbrella fund constituted by a Deed of Trust dated 15 March 2004 between Fullerton Fund Management Company Ltd (the "Manager") and HSBC Institutional Trust Services (Singapore) Limited (the "Trustee"). The Deed of Trust and all supplemental deeds are governed in accordance with the laws of the Republic of Singapore.

As at 31 March 2025, The Fund comprises fifteen separate and distinct sub-funds, namely Fullerton Short Term Interest Rate Fund ("FSTIR"), Fullerton SGD Cash Fund ("FSCF"), Fullerton Singapore Bond Fund ("FSBF"), Fullerton SGD Income Fund ("FSIF"), Fullerton Total Return Multi-Asset Advantage ("FTRMA"), Fullerton Asia Income Return ("FAIR"), Fullerton USD Income Fund ("FUSIF"), Fullerton USD Cash Fund ("FUCF"), Fullerton Wise Income ("FWI") (Formerly Fullerton MoneyOwl WiseIncome) ("FMWI"), Fullerton Total Return Multi-Asset Income ("FTRMI"), Fullerton SGD Heritage Balanced Fund ("FSHB"), Fullerton SGD Heritage Growth Fund ("FSHG"), Fullerton SGD Heritage Income Fund ("FSHI"), Fullerton SGD Savers Fund ("FSSF") and Fullerton SGD Liquidity Fund ("FSLF").

This report only comprises one separate and distinct sub-fund, namely Fullerton Short Term Interest Rate Fund ("FSTIR" or this "Sub-Fund").

The investment objective of FSTIR is to achieve medium-term capital appreciation through investment primarily in Singapore Dollar denominated debt securities of up to 5 years tenure, and money market instruments. FSTIR may invest in foreign currency denominated bonds (fully hedged back into Singapore Dollar except for a 5% frictional currency limit) with investment-grade credit ratings of at least BBB- by Standard and Poor's or Baa3 by Moody's (or their respective equivalent) of up to 5 years tenure. FSTIR may also utilise derivatives for the purposes of hedging and/or efficient portfolio management.

FSTIR currently offers eight classes of units, namely Class A SGD\$, Class B SGD\$, Class B1 SGD\$, Class C SGD\$, Class C1 SGD\$, Class D (USD-Hedged), Class R SGD\$ and Class R1 SGD\$.

The management fee rates of Class A SGD\$, Class B SGD\$, Class R SGD\$, Class R1 SGD\$ respectively are 0.1%, 0.2%, 0.3%, 0.25% per annum, and the management fee of Class B1 SGD\$, Class C SGD\$, Class C1 SGD\$ and Class D (USD-Hedged) is 0.5% per annum.

The Classes in the Fund differ, amongst other things, in terms of the currency of denomination, management fee rate, distribution policy etc.

The Manager adopted dilution adjustment for FSTIR. The Sub-Fund is single priced and may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, switches and/or redemptions in and out of a Sub-Fund. This is known as "dilution". In order to counter this and to protect unitholders' interests, the Manager applies a technique known as swing pricing or dilution adjustment as part of its valuation policy. This means that in certain circumstances the Manager makes adjustments in the calculations of the Net Asset Values per unit, to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

---

## **FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 March 2025*

---

#### **1. General (continued)**

The need to make a dilution adjustment depends upon the net value of subscriptions, switches and redemptions received by a Sub-Fund on each Dealing Day. The Manager therefore reserves the right to make a dilution adjustment where a Sub-Fund experiences a net cash movement which exceeds a threshold of the previous Dealing Day's Net Asset Value.

As at 31 March 2025, the Sub-Fund did not reach the swing threshold and no swing pricing has been applied on that date.

#### **2. Material accounting policy information**

##### **2.1 Basis of preparation**

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value, and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP7") revised and issued by the Institute of Singapore Chartered.

##### **2.2 Recognition of income**

Interest income on deposits placed with financial institutions is recognised on a time proportion basis using the effective interest method.

Dividend income from investments is recognised when the right to receive payment is established.

##### **2.3 Investments**

Investments are classified as financial assets at fair value through profit and loss.

###### **(i) Initial recognition**

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

###### **(ii) Subsequent measurement**

Investments are subsequently carried at fair value. Net change in the fair value of investments are included in the Statement of Total Return in the year, in which they arise.

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**  
(Constituted under a Trust Deed registered in the Republic of Singapore)

**NOTES TO THE FINANCIAL STATEMENTS**

For the financial year ended 31 March 2025

---

**2. Material accounting policy information (continued)**

**2.3 Investments (continued)**

**(iii) Derecognition**

Investments are derecognised on the trade date of disposal when the rights to receive cash flows from the investments have expired or have been transferred. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

**2.4 Basis of valuation of investments**

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price used for investments in debt securities held by the Sub-Fund is the market mid prices. Accrued interest or discount or premium on debt securities at the reporting date are included in the fair value of debt securities. Interest income on debt securities is presented within net gains or losses on investments on the Statement of Total Return.

The quoted market price used for investments in underlying funds held by the Sub-Fund is the published price of the underlying funds at the close of trading on the reporting date.

**2.5 Foreign currency translation**

**(i) Functional and presentation currency**

Items included in the financial statements are measured using the currency of the primary environment in which it operates ("the functional currency").

The functional currency of the Sub-Fund is Singapore Dollar ("S\$"), which reflects the fact that subscriptions and redemption and reporting to the unitholders of the Sub-Fund, as well as settlement of fees and expenses are carried out in S\$.

The Sub-Fund has adopted S\$ as their presentation currency and the financial statements are presented in S\$.

**(ii) Transactions and balances**

Foreign currency monetary assets and liabilities are translated into S\$ at the rates of exchange ruling at the end of the reporting period. Foreign currency transactions during the year are converted into S\$ at the rates of exchange ruling on the transaction dates. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from translation of foreign currency monetary assets and liabilities at the end of the reporting period are recognised in the Statement of Total Return. Translation differences on financial assets and liabilities carried at fair value through profit or loss are recognised in the Statement of Total Return in 'net foreign exchange gains'.

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**  
(Constituted under a Trust Deed registered in the Republic of Singapore)

**NOTES TO THE FINANCIAL STATEMENTS**

For the financial year ended 31 March 2025

---

**2. Material accounting policy information (continued)**

**2.6 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

Cash collateral provided by the Sub-Fund is identified in the Statement of Financial Position as margin deposits and is not included as a component of cash and cash equivalents.

**2.7 Expenses charged to the Sub-Fund**

All direct expenses relating to the Sub-Fund is charged directly to the Statement of Total Return.

**2.8 Structured entities**

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes: (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Sub-Fund considers investments in the investee funds ("Investee Funds") to be investment in unconsolidated structured entities. The Sub-Fund invests in Investee Funds whose objectives range from achieving short to long term capital growth and whose investment strategy does not include the use of leverage. Investee Funds may be managed by related asset managers and apply various investment strategies to accomplish their respective investment objectives. Investee Funds finance their operations by issuing redeemable shares which are puttable at the holder's option and entitles the holder to a proportional stake in the respective fund's net assets. The Funds hold redeemable shares in each of their Investee Funds.

The change in fair value of the Investee Fund is included in the Statement of Total Return in "Net gains on investments".

**2.9 Financial derivatives**

Financial derivatives which may include forwards, swaps, options and futures are entered into for the purpose of efficient portfolio management, tactical asset allocation or specific hedging of financial assets held as determined by the Manager and in accordance with the provisions of the Trust Deed.

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**  
(Constituted under a Trust Deed registered in the Republic of Singapore)

**NOTES TO THE FINANCIAL STATEMENTS**

For the financial year ended 31 March 2025

---

**2. Material accounting policy information (continued)**

**2.9 Financial derivatives (continued)**

Financial derivatives outstanding at the end of the reporting period are measured at their fair values using the “mark-to-market” method, and the resultant gains and losses are recognised in the Statement of Total Return.

**2.10 Other receivables**

Other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Other receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

**2.11 Payables**

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

**2.12 Cash and cash equivalents**

Cash and cash equivalents comprise cash at banks and deposits with financial institutions which are subject an insignificant risk of change in value.

**2.13 Sales and purchases awaiting settlement**

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

**2.14 Margin deposits**

The margin deposits comprise cash held with the financial derivatives counter parties for the purpose of transferring of cash to fund future margin maintained with the clearing house.

**2.15 Creation and cancellation of units**

Units are issued and redeemed at the prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption for each respective class. The Sub-Fund's net asset value per unit is calculated by dividing the net asset attributable to the holders of each class of units with the total number of outstanding units for each respective class.

**2.16 Distributions to unitholders**

Dividends are declared at the discretion of the Manager with the consent of the Trustee. In such an event, an appropriate amount will be transferred to a distribution account to be paid out on the distribution date. The amount shall not be treated as part of the property of the Sub-Funds. Distributions are accrued for at the reporting date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**  
(Constituted under a Trust Deed registered in the Republic of Singapore)

**NOTES TO THE FINANCIAL STATEMENTS**

For the financial year ended 31 March 2025

---

**2. Material accounting policy information (continued)**

**2.17 Taxation**

Current income tax for current period is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the statement of financial position date. Manager periodically evaluated position taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a tax authority will accept an uncertain tax treatment. The Sub-Funds measure their tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Current income taxes are recognised as income or expense in the Statement of Total Return, except to the extent that the tax arises from a business combination or a transaction which is recognised directly in equity.

**3. Income tax**

The Sub-Fund was granted the status of Designated Unit Trusts (DUT) in Singapore. The Trustee of the Sub-Fund will ensure that the Sub-Fund fulfils their reporting obligations under the DUT Scheme.

Under the DUT Scheme, subject to certain conditions and reporting obligations being met, certain income of the DUT fund is not taxable in accordance with Sections 35(12) and 35(12A) of the Income Tax Act. Such income includes:

- (a) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (b) interest (other than interest for which tax has been deducted under Section 45 of the Income Tax Act);
- (c) dividends derived from outside Singapore and received in Singapore;
- (d) gains or profits derived from foreign exchange transactions, transactions in futures contracts, transactions in interest rate or currency forwards, swaps or option contracts and transactions in forwards or option contracts relating to any securities or financial index;
- (e) discount, prepayment fee, redemption premium and break cost from qualifying debt securities issued during the prescribed period; and
- (f) distributions from foreign unit trusts derived from outside Singapore and received in Singapore.

Singapore income tax represents tax deducted at source for Singapore sourced dividends.

**4. Financial derivatives, at fair value**

Financial derivative contracts comprise forward foreign exchange contracts for the purchase and sale of foreign currencies. The year-end positive and negative fair values represent the unrealised gains and losses respectively on revaluation of derivative financial instruments at the end of the reporting year. The contract or underlying principal amounts of these financial derivatives and their corresponding gross positive or negative fair values at the end of the reporting year are analysed below.

	At 31 March 2025			At 31 March 2024

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND***(Constituted under a Trust Deed registered in the Republic of Singapore)***NOTES TO THE FINANCIAL STATEMENTS***For the financial year ended 31 March 2025***6. Financial risk management**

The Sub-Fund's activities may expose it to a variety of risks, including but not limited to market risk (including price, currency and interest rate risk), credit risk and liquidity risk, which are associated with the financial instruments and markets in which the Sub-Fund invests.

The overall responsibility for the management of the Sub-Fund's financial risks lies with the Manager. The risk management policies employed by the Manager to manage these risks are discussed below.

**6.1 Market risk**

At the end of the reporting period, the Sub-Fund's market risk comprises three main components, namely changes in actual market prices of investments ("price risk"), foreign currency movements and interest rates.

**(a) Price risk**

The Sub-Fund attempts to manage the fluctuation in prices of its underlying investments by engaging in extensive investment research and diversifying their investments across markets, sectors and securities.

The table below summarises the Sub-Fund's overall market exposure at the end of the reporting year.

	<b>2025</b>		<b>2024</b>	
	<b>Fair value S\$</b>	<b>% of total net assets attributable to unitholders</b>	<b>Fair value S\$</b>	<b>% of total net assets attributable to unitholders</b>

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**  
(Constituted under a Trust Deed registered in the Republic of Singapore)

**NOTES TO THE FINANCIAL STATEMENTS**

For the financial year ended 31 March 2025

---

**6. Financial risk management (continued)**

**6.1 Market risk (continued)**

**(a) Price risk (continued)**

One of the principal tool used to monitor price risk is Value at Risk (VaR). VaR estimates the probability of portfolio losses based on the statistical analysis of historical price volatilities. The Manager tracks VaR as a percentage of net asset value ("NAV"), taking into account its investments, cash, margin and outstanding trade positions.

The Manager recognises that while VaR is a valuable guide to risk, it has its limitations. The use of historical data as a proxy for estimating future events may not encompass all potential events, particularly those which are extreme in nature.

The table below summarises the VaR analysis as at 31 March 2025 and 2024 respectively, which has been presented as a percentage of NAV using a 260 (2024: 260-day) holding period at a 95% (2024: 95%) confidence level.

	2025	2024
95% (2024:95%) Confidence (VaR as a % of NAV)	<b>2.3%</b>	1.4%

The use of a 260 (2024: 260-day) holding period reflects the Sub-Fund's emphasis to hold investments for the medium to long term to realise the inherent value of the investments.

The VaR analysis as at 31 March 2025 and 2024 has been presented as a percentage of NAV using a 260-day holding period at a 95% (2024:95%) confidence level, measured using a Factor-Based approach.

**(b) Currency risk**

The Sub-Fund holds assets and liabilities denominated in currencies other than the functional currency. They are therefore exposed to currency risk as the value of the assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates. The Manager adopts an active currency management approach. As such, the foreign currency exposure of the Sub-Fund may not be fully hedged.

The Manager may manage the currency risks by hedging through forward currency contracts, currency futures, currency swap agreements or currency options.

The Sub Fund's currency risk associated with movements in prevailing levels of foreign currency rates is incorporated in the VaR analysis in Note 6.1(a).

**6.2 Interest rate risk**

The Sub-Fund invests mainly in quoted debt securities which are interest bearing, and are therefore exposed to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Excess cash and cash equivalents of the Sub-Fund, which are held with approved reputable financial institutions, are also exposed to interest rate risk. The Sub-Fund's interest rate risk associated with movements in prevailing levels of market interest rates is incorporated in the VaR analysis in Note 6.1(a).

The Sub-Fund's interest-bearing financial assets expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows. The Manager has in place investment processes which actively monitor and evaluate interest rate risk. In addition, there are restrictions on duration and tenor to ensure investment recommendations are consistent with the Sub-Fund's objectives. The Manager may hedge interest rate risk through interest rate and bond futures, interest rate swaps and/or bond options.

**6.3 Credit risk**

The Sub-Fund takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due.

Credit risk arises from cash and cash equivalents, debt securities and derivatives, and credit exposures to brokers arising from outstanding and committed transactions. The Sub-Fund is also exposed to the risk that its assets held with the custodian may not be recoverable in the event of default by the custodian.

The Sub-Fund limits its exposure to credit risk by undertaking transactions with reputable financial institutions. All transactions in quoted securities are settled or paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the Sub-Fund's brokers have received payment. Payment is made on a purchase once the securities have been received by the Sub-Fund. The trade will fail if either party fails to meet its obligation.

**6. Financial risk management (continued)**

**6.4 Fair value estimation**

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table analyses within the fair value hierarchy the Sub-Fund's financial assets and liabilities (by class) measured at fair value at 31 March 2025 and 2024:

**31 March 2025**

	Level 1 S\$	Level 2 S\$	Level 3 S\$	Total S\$

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND**  
*(Constituted under a Trust Deed registered in the Republic of Singapore)*

**NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 March 2025*

**6. Financial risk management (continued)**

**6.4 Fair value estimation (continued)**

Investments whose values are based on quoted market prices in active markets, are classified within Level 1, including MAS bills. The Sub-Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include quoted debt securities and over-the-counter derivatives.

The assets and liabilities included in the Statement of Financial Position except portfolio of investments and financial derivatives are carried at amortised cost, their carrying values are reasonable approximation of fair value.

**6.5 Offsetting financial assets and financial liabilities**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

The following tables present the Sub-Fund's financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements. The tables are presented by type of financial instrument.

Financial assets subject to offsetting, enforceable master netting arrangements and similar agreements:

<b>2025</b>	<b>A</b>	<b>B</b>	<b>C = A - B</b>	<b>D</b>	<b>E = C - D</b>
	Gross amounts of recognised financial assets	Gross amounts of recognised financial liabilities set-off in the statement of financial position	Net amounts of financial assets presented in the statement of financial position	Related amounts not set-off in the statement of financial position D(i) and D(ii) Financial Instruments	D(ii) Cash Collaterals Received Net Amount
Derivative financial instruments	<b>7,857,389</b>	-	<b>7,857,389</b>	<b>(439,513)</b>	-

(Constituted under a Trust Deed registered in the Republic of Singapore)

**NOTES TO THE FINANCIAL STATEMENTS**

For the financial year ended 31 March 2025

---

**6. Financial risk management (continued)**

**6.6 Liquidity and capital risks**

Liquidity risk is the risk that the Sub-Fund will not have the ability to liquidate positions to satisfy commitments to unitholders for redemptions due to market conditions. The Manager monitors the Sub-Fund's liquidity position on a daily basis.

The Sub-Fund's financial liabilities have a less than three-month maturity based on the remaining period at the end of the reporting period to their respective contractual maturity dates.

Units are redeemable at the unitholders' option. However, in accordance with the Sub-Fund's prospectus, if Sub-Fund does not hold sufficient cash or cash equivalents to make payment for the redemption without detriment to the Sub-Fund, as determined in the sole discretion of the Trustee, then the Trustee (on behalf of the Sub-Fund) shall make such payment at the earliest possible date when it is able to do so.

**6.7 Derivative risk**

As the Sub-Fund may invest in derivatives for purposes of hedging and for efficient portfolio management, investments in the Sub-Fund will be subject to risks associated with such derivative investments. Investments in derivatives may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment positions. If no provision is made for the required margin within the prescribed time, the Sub-Fund's derivative investment may be liquidated at a loss. Therefore, it is essential that such investments in derivatives are monitored closely.

Investments in derivatives are subject to similar risk guidelines stipulated for the underlying instruments. Derivatives investments are included in the overall risk monitoring and measurement process for the portfolio.

**7. Related party disclosure**

7.1 The Manager of the Fund is Fullerton Fund Management Company Ltd. The Trustee is HSBC Institutional Trust Services (Singapore) Limited, a subsidiary of HSBC Holdings PLC. The management fee, custodian fees, valuation fees and the trustee fees paid or payable by the Sub-Fund are shown in the Statement of Total Return and are on terms set out in the Trust Deed.

7.2 At the end of the financial year, the Sub-Fund maintained current accounts and deposits with HSBC Bank:

	<b>2025</b>	<b>2024</b>
	<b>S\$</b>	<b>S\$</b>
Current accounts (HSBC Bank)	<b>36,082,920</b>	<b>1,249,931</b>

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND***(Constituted under a Trust Deed registered in the Republic of Singapore)***NOTES TO THE FINANCIAL STATEMENTS***For the financial year ended 31 March 2025***8. Auditors' remuneration**

During the financial year, the following fees were paid or payable for services provided by the auditor of the Sub-Fund.

	2025 S\$	2024 S\$
<b>Auditors' remuneration paid/payable to</b>		
- Auditor of the Sub-Fund	33,619	47,609
<b>Other fees paid/payable to:</b>		
- Auditor of the Sub-Fund	6,895	11,597
<b>Total</b>	<b>40,514</b>	<b>59,206</b>

**9. Financial ratios**

	2025 %	2024 %
<b>Expense ratio</b> <sup>(1), (2)</sup>		
- Class A	0.13	0.15
- Class B	0.23	0.25
- Class B1	0.38	0.40
- Class C	0.53	0.55
- Class C1 (annualised)*	0.55	-
- Class D	0.53	0.55
- Class R	0.26	0.35
- Class R1 (annualised)*	0.29	-
<b>Turnover ratio</b> <sup>(3)</sup>	<b>135.69</b>	<b>170.35</b>

\* Class C1 and R1 launched on 30 August 2024 and 18 September 2024 respectively.

(1) The expense ratios have been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS").

The calculation of the Sub-Fund's expense ratios at 31 March 2025 was based on total operating expenses divided by the average net asset value respectively for the year/period. The total operating expenses do not include (where applicable) brokerage and other transaction costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of the Sub-Fund and tax deducted at source or arising out of income received. The Sub-Fund do not pay any performance fee. The average net asset value is based on the daily balances. The total operating expenses and average net asset values of the Sub-Fund are presented in the table below.

**FULLERTON FUND - FULLERTON SHORT TERM INTEREST RATE FUND***(Constituted under a Trust Deed registered in the Republic of Singapore)***NOTES TO THE FINANCIAL STATEMENTS***For the financial year ended 31 March 2025***9. Financial ratios (continued)**

(2) The expense ratio is the sum of the Sub-Fund's expense ratio and the weighted average of the underlying funds' unaudited expense ratios. The weighted average of the underlying funds' unaudited expense ratios are presented in the table below.

	2025 S\$	2024 S\$
<b>Total operating expenses</b>		
Class A	2,683	3,085
Class B	213,356	312,148
Class B1	59,570	84,958
Class C	2,334,342	2,859,230
Class C1*	6,406	-
Class D	595,919	717,652
Class R	132,812	94,664
Class R1*	455,426	-
<b>Average net asset value</b>		
Class A	2,136,050	2,041,161
Class B	93,984,083	124,056,755
Class B1	15,798,888	21,143,459
Class C	443,038,319	517,738,847
Class C1*	1,993,349	-
Class D	113,435,370	129,747,839
Class R	51,868,445	26,929,638
Class R1*	289,503,479	-

\* Class C1 and R1 launched on 30 August 2024 and 18 September 2024 respectively.

(3) The portfolio turnover ratios are calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments divided by the average daily net asset value respectively as below:

	2025 S\$	2024 S\$
Total value of purchases or sales	1,187,851,794	1,399,683,993
Average net asset value	875,441,121	821,657,699
