

Fullerton SGD Savers Fund - Class B

June 2025

Investment Objective

The investment objective of the Fund is to seek to balance between liquidity and yield, targeting a higher return than SGD fixed deposit rate.

Investment Focus and Approach

The Fund will invest in a diversified portfolio of primarily government bills, cash, money market instruments, and investment grade fixed income securities having a minimum long term credit rating of BBB by Fitch, Baa2 by Moody's or BBB by Standard & Poor's (or their respective equivalents). Non-rated bonds will be subject to the Managers' internal rating process and will follow the Managers' internal equivalent rating accordingly. For the avoidance of doubt, the minimum long term credit rating for fixed income securities is applicable at the point of purchase only.

The Fund may invest in Singapore Dollar and foreign currency denominated bonds. The foreign currency denominated bonds will be hedged back to the Singapore Dollar except for a 5% frictional currency limit (to account for possible deviations from a 100% hedge).

The Fund may enter into repurchase transactions for the purpose of efficient portfolio management.

The Managers may use Financial Derivative Instruments (FDIs) for hedging and efficient portfolio management purposes.

The Managers may also invest in other Authorised Investments.

Performance (%)
