

# Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## ASIAN INVESTMENT GRADE BONDS

is a fund of FULLERTON LUX FUNDS

### Class I (USD) Accumulation (the "share class") - ISIN: LU2147384908

The Management Company of the fund is FundSight S.A.

## Objectives and investment policy

### Objectives

The investment objective of the fund is to generate long term capital appreciation for investors.

### Investment Policy

The fund invests in fixed income or debt securities denominated primarily in USD and primarily issued by companies, governments, quasi-governments, government agencies or supranationals in the Asian region.

The fixed income or debt securities shall primarily be investment grade with a minimum issue credit rating of BBB- by Standard & Poor's, or Baa3 by Moody's or BBB- by Fitch (or their respective equivalents).

The fund may also invest in unrated bonds. Unrated bonds will be subject to the Investment Manager's internal rating process and shall have credit quality similar to bonds that are rated minimum BBB- by Standard & Poor's, or Baa3 by Moody's or BBB- by Fitch.

The fund may also invest (i) up to 15% of the fund's Net Asset Value in contingent convertible securities (including perpetual contingent convertible securities) and/or (ii) up to 15% of the fund's Net Asset Value in perpetual bonds (excluding perpetual contingent convertible securities).

The fund's investment in onshore RMB (CNY) bonds may include bonds traded in both the CIBM and PRC Stock Exchanges, made through QFI, Bond Connect, direct CIBM program, and/or any other means as may be permitted by the relevant regulations from time to time, for up to 10% of the fund's Net Asset Value.

The Asian countries may include but are not limited to China, (including Hong Kong SAR and Taiwan), South Korea, India, Thailand, Malaysia, Singapore, Indonesia, the Philippines, Pakistan and Vietnam.

The fund may employ financial derivative instruments for hedging and efficient portfolio management purposes only.

The fund may invest in money market instruments, money market funds, term deposits, bank deposits and other eligible liquid assets for treasury purposes and in case of unfavourable market conditions.

The fund may hold up to 20% of its Net Asset Value in ancillary liquid assets (bank deposits at sight, such as cash held in current accounts). Under exceptionally unfavourable market conditions and if justified in the interest of the investors, the fund may temporarily invest up to 100% of the fund's Net Asset Value in assets referred in these two last paragraphs of this section.

**Benchmark:** The fund is actively managed with reference to the benchmark, "JACI Investment Grade Total Return Index", for performance comparison purposes.

The fund does not try to replicate this benchmark and freely selects the securities that it invests in. The deviation from this benchmark can be material.

During periods of market volatility, the Investment Manager will have the discretion to manage the fund in closer alignment with the benchmark as it varies the risk it takes against the index.

For currency hedged share classes (if any), the benchmark will be hedged to the Share Class currency.

The fund's base currency is USD.

The currency of the share class is USD.

Investors may redeem shares on demand. Dealing in shares is carried out on each bank business day in Luxembourg and Singapore.

This share class accumulates income received from the fund's investments, meaning the income is kept in the fund and the value is reflected in the price of the share class.

## Risk and reward profile

### What does this risk & reward indicator mean?

- This share class is classified in category 3 because the value of the share may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.
- The risk category has been determined on the basis of historical and/or simulated data and may not be a reliable indication of the fund's future risk profile. The risk and reward category shown is not guaranteed to remain unchanged and the categorisation of the fund may shift over time.
- The lowest category of the risk & reward indicator does not mean a risk-free investment.
- Repayment of the initial investment is not guaranteed.

### Which materially relevant risks are not adequately captured by the risk & reward indicator?

- Liquidity risk:** Securities in the fund may be sold below their valuation due to insufficient liquidity in the markets.
- Counterparty risk:** A counterparty may fail to deliver its obligations to the fund.
- Operational risk:** Failures or delays in operational processes may affect the fund negatively.
- Event risk:** Unforeseeable events such as political events, regulatory changes, tax law changes etc, may impact the fund's performance.
- Bond Connect risk:** The fund may be investing in onshore RMB bonds via Bond Connect which may entail additional settlement, regulatory, operational and counterparty risks.
- Country risk:** The fund invests in China through the Investment Manager's QFI license and is subject to risks related to QFI such as regulatory and tax risks. The fund is also subject to changes in China's foreign exchange control and repatriation policies which may affect the liquidity and performance of the fund.
