KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of an umbrella unit trust constituted in Singapore. The Sub-Fund seeks to balance between liquidity and yield, targeting a higher return than SGD fixed deposit rate.
- Distributions (if any) may be declared in our absolute discretion and may reduce the Sub-Fund's NAV.

Refer to the "Basic Information" section and Annex 14 (A) and (E) of the Prospectus for further information on features of the product.

Investment Strategy

- The Sub-Fund will invest in a diversified portfolio of primarily government bills, cash, money market instruments, and investment grade fixed income securities having a minimum long term credit rating of BBB by Fitch, Baa2 by Moody's or BBB by Standard & Poor's (or their respective equivalents).
- Non-rated bonds will be subject to our internal rating process and will follow our internal equivalent rating.
- For the avoidance of doubt, the minimum long term credit rating for fixed income securities is applicable at the point of purchase only.
- The Sub-Fund may invest in Singapore Dollar and foreign currency denominated bonds. The foreign currency denominated bonds will be hedged back to the Singapore Dollar except for a 5% frictional currency limit (to account for possible deviations from a 100% hedge).
- It may enter into repurchase transactions for the purpose of EPM.
- We may use FDIs for hedging and EPM purposes.
- We may also invest in other Authorised Investments.

Refer to Annex 14 (B) of the Prospectus for further information on the investment strategy of the product.
