Investment Strategy	
 The Fund invests primarily in, but not limited to, equities, index futures, cash and cash equivalents (including but not limited to term deposit and money market funds). The Investment Manager refers to the SDGs adopted by the United Nations for formulation of ideas for the Fund's sustainable investment strategy. The Fund uses strict ESG ratings inclusion criteria as well as negative screens, which restrict the Fund to invest in companies with favourable and/or improving ESG characteristics. Investments include equities and equities-related securities listed on exchanges in the Asia region, as well as equities and equities-related securities of companies which have operations in, exposure to, or derive part of their revenue from the Asia region, wherever they may be listed. Indirect investments in equities may be via P-Notes and other eligible access products, for up to 10% of the Fund's NAV. Investment in China "A" Shares listed on PRC Stock Exchanges may be made through the Stock Connects and/or any other means as may be permitted by the relevant regulations, for up to 35% of the Fund's NAV. The Fund will typically be comprised of a concentrated portfolio of high conviction holdings, and will be constructed without reference to any particular benchmark. The Fund may invest in ancillary liquid assets, as described in its investment objective and policy. The Fund, which Shares are Excluded Investment Products, may use FDIs for efficient portfolio management and hedging purposes. 	Refer to paragraph 3 of the Singapore Prospectus for further information on the investment strategy of the product.
